

TRUCKSTOPPER 5

AVAILABLE AS A STATIC OR REMOVABLE BOLLARD

PRODUCT OVERVIEW

TRUCKSTOPPER 5 IS ONE OF THE SHALLOWEST IMPACT TESTED BOLLARDS AVAILABLE ON THE MARKET TODAY, WITH A FOUNDATION DEPTH OF JUST 400MM, REDUCING THE NEED TO RE-DIVERT UTILITIES. THIS ALLOWS FOR INSTALLATION AT A FRACTION OF THE COST OF TRADITIONAL BOLLARDS.

UNLIKE TRADITIONAL STEEL TUBE BOLLARDS, SAFETYFLEX'S TRUCKSTOPPER 5 UTILISES OUR PATENTED SPRING STEEL DESIGN, CREATING A DURABLE, ULTRA SLIMLINE PRODUCT THAT IS IDEAL FOR BLENDING INTO THE PUBLIC REALM.

THE TRUCKSTOPPER 5 SYSTEM IS DESIGNED TO FOLLOW THE CONTOURS OF THE GROUND SO CAN MANOEUVRE AROUND CORNERS, BENDS, AND CAN BE INSTALLED ON A INCLINE.
