

TRUCKSTOPPER 7-40

AVAILABLE AS A STATIC OR REMOVABLE BOLLARD

PRODUCT OVERVIEW

TRUCKSTOPPER 7 IS ONE OF THE SHALLOWEST IMPACT TESTED BOLLARDS AVAILABLE ON THE MARKET TODAY, WITH A FOUNDATION DEPTH OF JUST 200MM, REDUCING THE NEED TO RE-DIVERT UTILITIES. THIS ALLOWS FOR INSTALLATION AT A FRACTION OF THE COST OF TRADITIONAL BOLLARDS.

UNLIKE TRADITIONAL STEEL TUBE BOLLARDS, SAFETYFLEX'S TRUCKSTOPPER 7 UTILISES OUR PATENTED SPRING STEEL DESIGN, CREATING A DURABLE, ULTRA SLIMLINE PRODUCT THAT IS IDEAL FOR BLENDING INTO THE PUBLIC REALM.

TRUCKSTOPPER 7 IS SINGLE TESTED, SO DOES NOT NEED TO BE INSTALLED IN AN ARRAY. THE SYSTEM IS DESIGNED TO FOLLOW THE CONTOURS OF THE GROUND SO CAN MANOEUVRE AROUND CORNERS, BENDS, AND CAN BE INSTALLED ON A INCLINE.

FINISHES

OVAL 316 STAINLESS STEEL MITRE TOP COVER WITH UP TO 2 HI-VIS BANDS AS STANDARD. ALTERNATIVE FINISHES AVAILABLE. PLEASE CONTACT YOUR SALES REPRESENTATIVE FOR MORE DETAILS.
